DOMINICAN REPUBLIC

The Dominican Republic is a recognized tourist destination with an abundance of natural beauty, a truly exotic and exuberant flora and fauna, forests and mangroves, rivers and miles of coastline beaches, natural springs and waterfalls, pleasant tropical weather, rich cultural heritage and joyful people.

LOCATION/GEOGRAPHY:

The country occupies the eastern two-thirds of the island of La Hispaniola, which it shares with Haiti, and is the second largest country in the Caribbean, comprising an area of 48,442 square kilometers (29,948 square miles). It is bordered on the north by the Atlantic Ocean and on the south by the Caribbean Sea. Approximately nine million people live in the Dominican Republic.

POPULATION:

The population of the Dominican Republic is more than 8.5 million people.

TIME ZONE:

Clocks are Atlantic Standard all year long one hour ahead of those on the US eastern seaboard in the fall – winter but keep the same time in the spring – summer. The Dominican Republic is four hours behind Greenwich Mean Time (GMT).

CAPITAL CITY:

The capital of the Dominican Republic is Santo Domingo, which is the oldest city in the new world. It has a population of almost 2.5 million people.

GOVERNMENT:

The Dominican Republic's political structure is based on democratic principles. Every four years the country elects its president, vice president and legislators.

LANGUAGE:

Spanish is the official language of the Dominican Republic although English is widely spoken, especially in tourist areas and large cities. Traffic signs are in Spanish, although menus in tourist regions are usually also available in English.

CURRENCY:

The Dominican Peso (RD\$) is the official currency of the Dominican Republic. You can find out the exchange rate at www.xe.com/ucc. Major credit cards and travelers' checks are accepted at many of the country's tourist locations;

CLIMATE:

The temperatures usually fluctuate from a high of 33°C (91°F) in August a chilly 17°C (62°F) on winter mornings. Temperatures between summer and winter usually fluctuate less than ten degrees.

TRANSPORTATION:

The country possesses a modern airport system, comfortable and efficient, composed of six airports located throughout the national geography for domestic and international flights. Cap Cana is only ten minutes away from the Punta Cana international airport. For ground transportation you can either rent a car upon your arrival at the airport or use a taxi service that can be provided by hour or day.

TELECOMMUNICATIONS:

The country has one of the most sophisticated telecommunications systems in Latin America that is provided by Claro Codetel, Tricom, Orange and Viva. Dialing to the United States requires +1 and to Europe and Asia +011.

TAX AND TIPS:

All services provided such as restaurants and hotels collect by law a 28% of their published prices, 18% for the sales tax and 10% service charge. It is customary to tip an additional 10% for satisfactory service in restaurants.

WATER:

While in the Dominican Republic it is recommended that you drink bottled or treated water. You will be served bottled water at restaurants. Do not drink tap water.

DRESS CODE:

Bathing suits and other beachwear are considered appropriate on the beach at the pool or on a boat. Topless bathing and nudity on the beach and pools are frowned upon.

MARINA CAP CANA GREEN RULES

Marina Cap Cana cares for the preservation of the marina sea and the beautiful coral reefs.

Knowing that nearly 26 percent of the world's existing coral reefs are severely damaged and another 32 percent may be lost, we are aware that these activities are especially sensitive to reef degradation.

Because we will love to have you as a visitor for many more years, please help us preserve the natural environment by following our green rules:

- ✧ Do not disturb or harass marine life or remove marine life from its natural habitat or shells
- ✧ Do not step on or touch coral. Use of anchors is only permitted in sand and in case of emergencies
- ✧ Do not throw cigarette butts, fishing line, plastic bags, bottles and garbage in the sea they are dangerous to sea life
- ✧ Marina Cap Cana encourages the use of biodegradable boating supplies
- ✧ Water quality impacts all sea life. For the disposal of chemicals such as oil, fuel, tar, paint, antifouling, bleach or sewage, use the receptacles provided for this matter. Under no circumstance should these be disposed in the sea water.
- ✧ Fish waste must be disposed onshore, not on the water
- ✧ Keep your engine well tuned to prevent fuel and oil leaks
- ✧ Conserve water when rinsing boats, do not waste freshwater

✧ According to international regulations, you must be three miles off shore before emptying holding tanks

✧ Avoid disturbing seafloor vegetation with outboard motor propellers. It may cause shoreline erosion and impact marine habitats

✧ Please be aware that the reefs of Cap Cana have been declared catch and release fishing zone. Fishing inside reef is limited exclusively to licensed fishermen.

✧ In 2008, the lionfish began to populate the reefs of the Dominican Republic. This predator can consume as many as 20 native fish in half an hour and can reduce the local biodiversity, the region has established some actions to control this specie. By fishing lionfish, you will help us control the threat of the lionfish to Dominican coral reefs.

✧ When buying souvenirs we recommend you avoid the purchase of coral or conch made gifts. Please be aware that in some countries you will not be allowed to enter with these items.

The Dominican Republic protects endangered species, when in the Dominican waters please take in to consideration the restrictions established by law:

✧ Respect the reproductive period of endangered marine life. The law establishes a ban for lobster from March 1st to June 30th and for conch from July 1st to October 31st.

✧ The hunt of marine mammals such as manatee and humpback whales is banned year-round.

✧ It is prohibited by law the hunt of marine turtles and their eggs.
